

Made specifically for quilters.

QUILTERS SELECT®

Foundational Products, fusibles, and batting

SELECT Cutaway The temporary fusible coating on this sheer, soft, non-stretch cutaway creates a bond that prevents fabrics from stretching or distorting. Use for supporting, T-shirt quilts, bias-cut pieces, or simply to keep blocks from moving while adding sashing or borders. Ideal for flaw-less turned-edge appliqué with sealed edges!

SELECT TearAway This ultra-lightweight tear-away foundation has just the right amount of body to support dense satin stitch appliqué, removes easily from your lightest stitching. The temporary fusible coating will hold the fibers in place, eliminating pinning or distortion.

SELECT Print & Piece Use for printing foundation or paper-pieced patterns. This fiber-based foundation won't perforate while stitching and supports detailed patterns. The fibers are partially water-soluble; simply dampen the stitching lines and they remove easily without distorting stitches!

SELECT Print & Piece Fuse Lite Ideal for needle-turn appliqué! This fiber-based foundation gives solid yet soft support for detailed or heavy stitching and the temporary fuse keeps fabrics from shifting or pulling. The fibers of Select Print & Piece Fuse Lite are partially water-soluble; simply dampen the stitching lines and the stabilizer is removed easily without distorting stitches!

SELECT Appli-Stick One side of this unique webbing is fusible and the other is sticky, making the appliqué movable. Reposition appliqué pieces as needed, fuse into place and add a favorite decorative stitch! Use the tape-size version for quilt bindings or decorative trims. Printable sheets make complex appliqué patterns a snap!

SELECT Appli-Web Plus Features an ultra-lightweight, permanent fusible webbing backed with heat-resistant paper for tracing your favorite appliqué patterns. Its unique flexible nature maintains the hand of the fabric with no bulk! Applications include: fabric or paper appliqué, craft and quilt uses, fiber-art, bonding fabric strips, and more!

SELECT Free Fuse

Creating a semi-permanent bond between most fabrics, battings and textiles, this powder-like bonding agent is needle friendly! Use for creating fusible quilt batting, fusible foundations, fabric to fabric - appliqués, costumes, quilting, home dec and more! Available in 2 ounce shakers and refills.

SELECT Fabric Prep

Use for prepping fine fabrics within our projects to prevent raveling or puckering. This ultra-lightweight interlining permanently fuses and offers needed support to the fibers without adding bulk. The soft woven texture blends beautifully with most luxury fabrics and will not change its drape or hand.

SELECT Perfect Cotton Batting

Select Perfect Cotton Batting is made with 100% long staple cotton, no chemicals and no bleaching. This incredibly soft, high quality batting features a light scrim (foundation) which helps to control stretching and movement during quilting and embellishing. Hand or machine quilters can stitch without fear of distortion. The 100% cotton fibers have been needle punched offering a smooth loft and superior support for your project! Ideal for hand or machine quilters.

SELECT Soft Blend Batting

Select Soft Blend Batting was created for machine or hand quilters who want to quilt and embellish without fear of distortion. This durable, yet soft batting features a light scrim (foundation) which helps to control stretching and movement during quilting and embellishing. This unique blend of cotton and polyester fibers has been needle punched offering superior support for your project! This quality batting has a smooth loft, with less resistance making it ideal for hand or machine quilters.

SELECT Soft Wool

This batting gives quilters the ultimate in insulation and warmth yet is lightweight and breathable. It has natural moisture-wicking properties; it resists bearding and fiber migration. Hand quilters will fall in love with the easy feel and texture as they guide their needle through the lofty fiber. Quilt up to 4" apart; 0-3% shrinkage.
